

## Our 2022 list of Top 10 Technologies

- 1. Less Energy & Water for Sustainable Mining**
- 2. Mimic Nature and Biomaterials**
- 3. Water Filtration**
- 4. Decarbonation of Bulk Materials**
- 5. Lower and renewable Energy for Hydrogen Production**
- 6. EV Batteries for Mobility Performance**
- 7. Stationary Batteries for Storage Performance**
- 8. Low Energy Electronics**
- 9. Recycling of EEE wastes**
- 10. Chemical Recycling of Plastics**
