

DANONE
ONE PLANET . ONE HEALTH

Gilles Schnepf – World Materials Forum

CLIMATE ACTION IS ANCHORED IN DANONE BUSINESS

DANONE HAS BEEN A PIONEER IN CLIMATE ACTION

“Corporate responsibility does not end at the factory gate or the office door”

Net Zero commitment throughout the value chain

Fight against climate change

1.5°C targets – including FLAG

Curb GHG emissions, leading the way on methane reduction

1972

2015

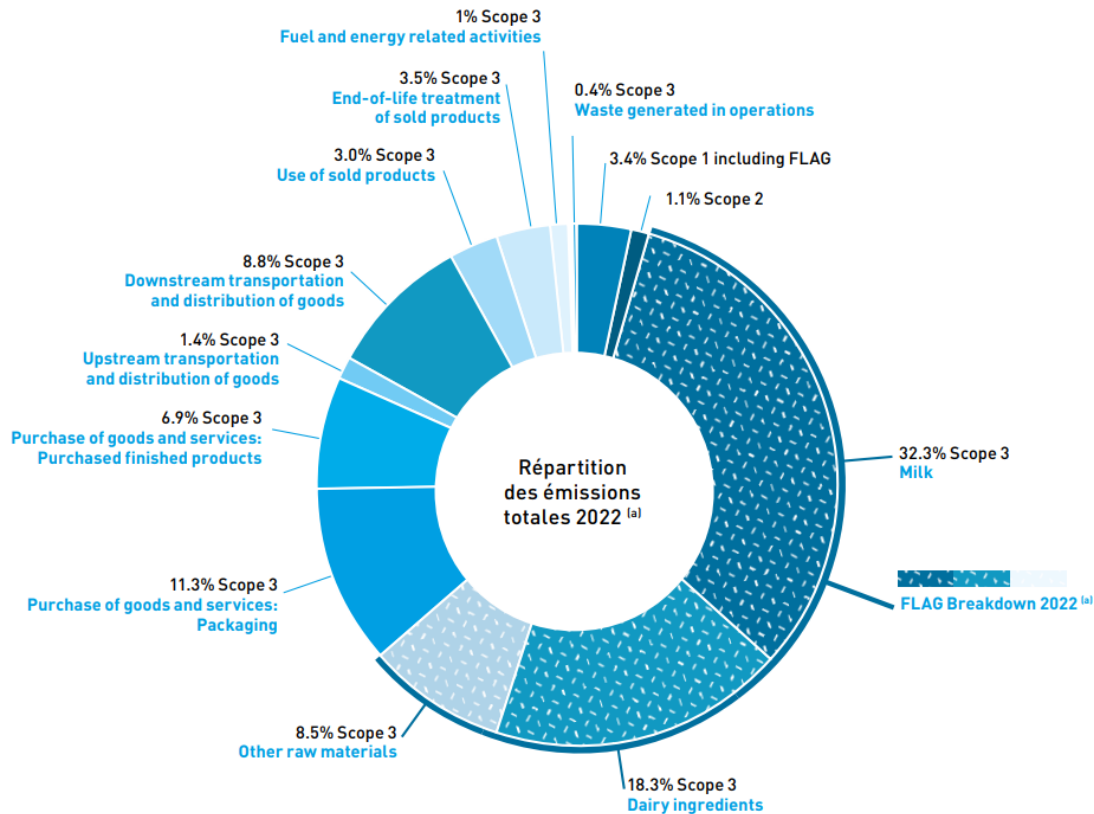

2020

2022

2023

DANONE CARBON FOOTPRINT

Scope 3 is material to Danone

➤ Scope 3 = 96% of Danone total carbon footprint

➤ Agriculture (Scope 3 FLAG) = > 60%

➤ Packaging (Scope 3 Non FLAG) = 11%

PACKAGING AND AGRICULTURE AS OUR PRIORITIES TO TACKLE SCOPE 3

CIRCULAR & LOW CARBON PACKAGING (NON-FLAG)

THROUGH VIRGIN PLASTIC REDUCTION,
LOW CARBON PACKAGING & EFFECTIVE
COLLECTION SYSTEMS

AGRICULTURE (FLAG)

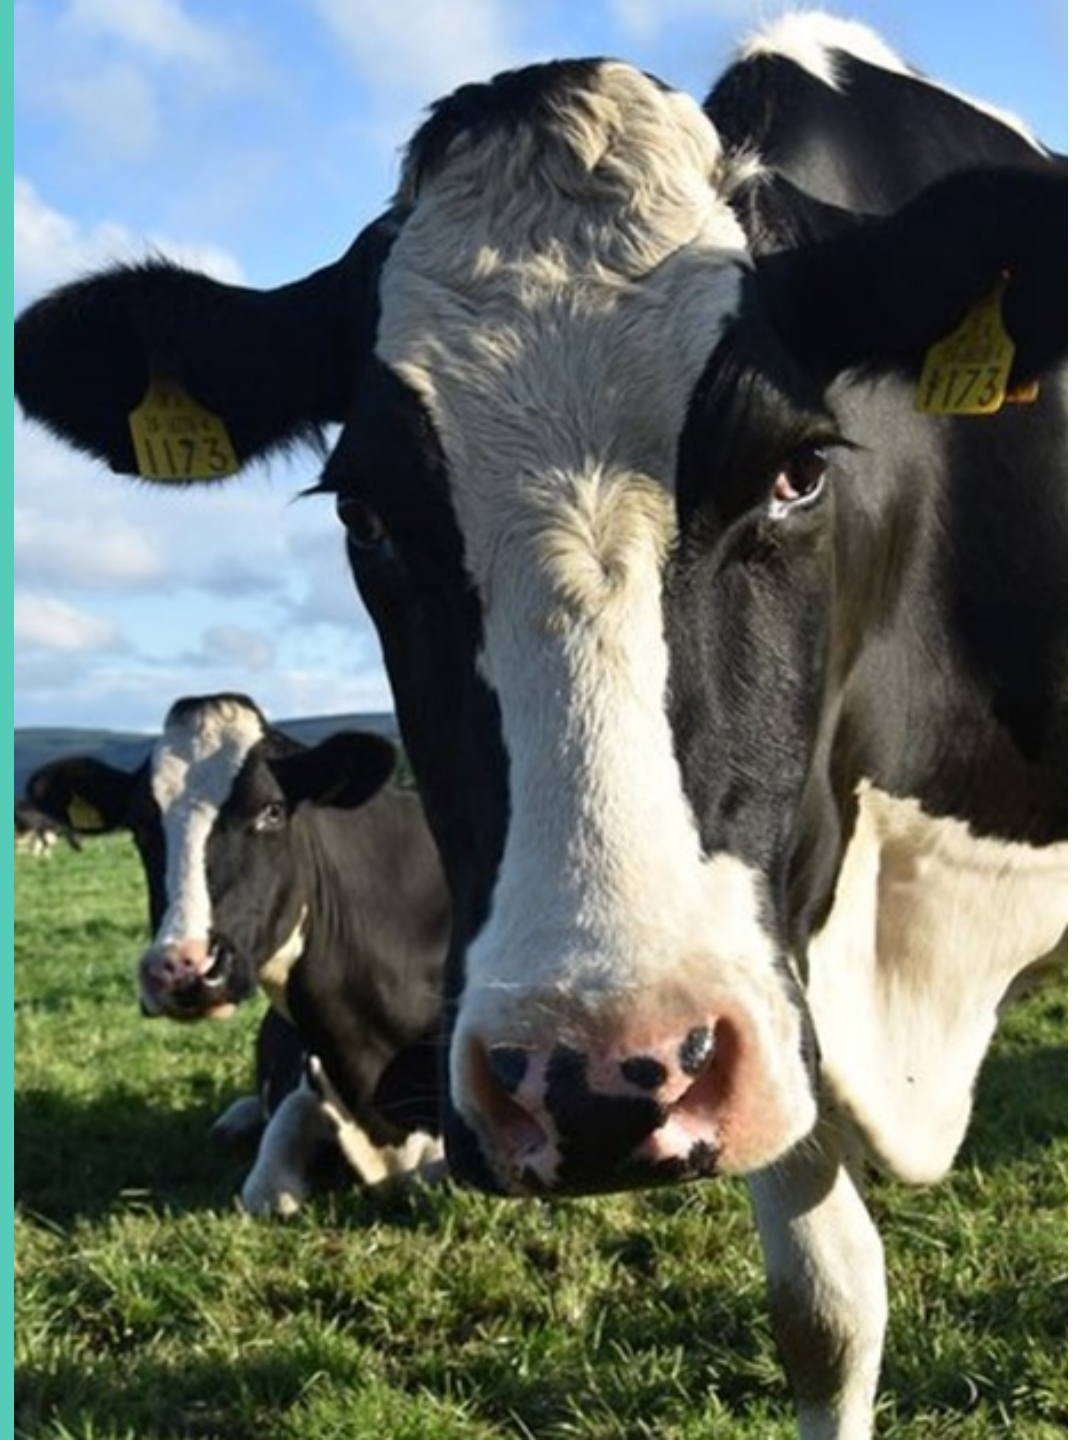

THROUGH REGENERATIVE AGRICULTURE
AND METHANE REDUCTION

FOCUS ON METHANE

DANONE
ONE PLANET. ONE HEALTH

METHANE REDUCTION, A TOP PRIORITY FOR DANONE

BUILDING A SUSTAINABLE FUTURE FOR OUR DAIRY CATEGORY

DAIRY IS AT THE HEART OF OUR MISSION TO BRING HEALTH THROUGH FOOD

High concentration of nutrients

Rich in high quality proteins

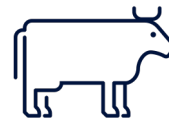

Calcium & Vitamin B12

A source of livelihoods for 1bn people

DAIRY HAS A STRONG ROLE TO PLAY TO ADDRESS ENVIRONMENTAL CHALLENGES

Methane: >80x warming power of CO2 over first 20 years after it reaches the atmosphere (27x over 100 years)

Methane accounts for 25% of our total GHG emissions

Cutting methane emissions is the fastest opportunity we have to immediately slow the rate of global warming.

WORKING HAND IN HAND WITH FARMERS

SUPPORTING THE TRANSITION TOWARDS REGENERATIVE DAIRY

QUANTIFYING ENVIRONMENTAL IMPACTS ON FARMS

Cool Farm Tool

DEVELOPING & ACTIVATING TOOLS FOR FARMERS

Scale up of regenerative agriculture practices:

Animal welfare and herd management, incl. feed

Manure management

Exploration of innovative solutions:

Methane inhibitors innovation

PILOTING PROJECTS

25 projects in 14 countries
developing reg. ag
4 new projects launched in
2023

MEASURING & REPORTING

With the support of external partners to improve science, data & reporting

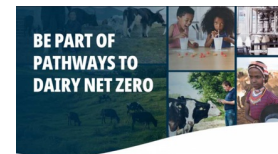

MOBILIZING EXTERNAL STAKEHOLDERS

TO CREATE THE CONDITIONS FOR SCALE & SPEED-UP OF THE TRANSITION

➤ Working with NGOs & scientific bodies

➤ Advocating and co-financing with public authorities

A NEED FOR DEEP TRANSFORMATION

IN THE WAY WE GROW, PRODUCE & BRING OUR PRODUCTS TO CONSUMERS

WE NEED...

MORE INNOVATIONS

MORE COLLABORATIONS

**TO SECURE SUSTAINABLE VALUE
CREATION
& COLLECTIVELY MEET THE CLIMATE
CHALLENGE**

*“Sustainability without
performance has no impact.
Performance without
sustainability has no future.”*
